

# Résumé Tilman Porschütz

Tilman is a versatile **consultant**, **frontend developer** and **digital designer** with **15+ years** experience in the field of **visualization**, **interaction design**, **user interfaces** and **immersive experiences**.

Their focus lies in bridging **human needs** and **digital realities** through responsible design, UX/UI, story telling and art. As a developer Tilman built **single page applications**, **websites**, **interactive installations** and **apps**. As a CTO and project manager, Tilman led interdisciplinary teams of up to 15 people, working with boutique agencies, startups, and corporations.

Tilman discusses their experiences through regular attendance at conferences and in their **research work** as an **artist**, **musician**, and **enthusiast media scientist**. This universal approach allows them to maintain a nuanced perspective on a market in constant flux.
